INDIBA®
DEEP BEAUTY
AESTHETIC PROIONIC SYSTEM

BEAUTY and Well-Being

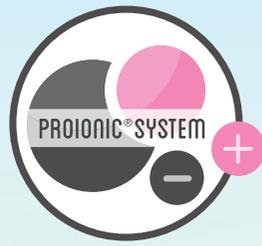

INDIBA® PROIONIC® COSMETICS

FOR AESTHETIC FACIAL,
HAIR AND BODY TREATMENTS

INDIBA® Proionic® cosmetics are specifically formulated to be used with **INDIBA® Deep Beauty** treatments:

- Increase electrical conductivity
- Facilitate good surface movement of the electrodes
- Improve the results of treatments
- Protect the integrity and durability of capacitive electrodes

INDIBA® Proionic® Creams

The range of pH-neutral, paraben-free conductive creams are designed exclusively for the **INDIBA® Deep Beauty** method.

The formulation contains a specific formula of moisturisers, emollients and lubricants that are designed to increase the moisture content of the epidermis and reduce trans-epidermal water loss. This unique cream reduces dryness, as well as improves the tone and appearance of the skin.

Professional use
CONTAINER 1000 ml

PROIONIC® Face Cream

Specifically formulated to enhance electrical conductivity in the facial area, which is much more sensitive than other parts of the body. Perfume free.

The texture aids the faster, more precise movements frequently involved in facial treatments.

Professional use
CONTAINER 1000 ml

PROIONIC® Body Cream

With its subtle bamboo scent and pleasant texture, this cream is specifically indicated for body treatments with **INDIBA® Deep Beauty**.

Professional use
CONTAINER 1000 ml

PROIONIC® Anti-cellulite Cream

With its subtle bamboo scent and pleasant texture, this cream includes plant extracts such as fucus, horsetail and horse chestnut, amongst others, which enhance the anti-cellulite effect of the treatment. In addition its moisturising action further improves appearance of the skin.

Professional use
CONTAINER 500 ml

RANGE OF HAIR PRODUCTS FOR NOURISHING, REGENERATING AND STRENGTHENING OF THE HAIR FOLLICLE
